## Property Description

Jungle Vista is a stunning three bedroom, three bathroom, single family home (2400SQFt) in the heart of Manuel Antonio's rainforest. While you're relaxing, you'll be able to watch the monkeys swing around the surrounding trees while the toucans' chant and the whistling sound of the cicadas give the scene a magical

musical background. With experiences like this, Jungle Vista is what Costa Rica is all about. Scheduled to be completed by August 2022, Jungle Vista offers a very well designed layout focusing on the jungle views, with an alluring end of the road feel. Your entrance is on the ground floor with a small garden and a carport. As you enter the main floor you have an open-plan kitchen and dining room that lead into the outdoors jungle deck. On this same floor you'll find the master bedroom with an ensuite and walk-in closet, and another access to the jungle deck. Upstairs you have two bedrooms, one bathroom and a laundry room.
