Property Description

With ample resources at their disposal, and the vision of arriving to the incredible South Pacific, coastal

zone of Costa Rica 25 years ago, the owners of Sea Ridge Reserve were early visionaries in the eco-investment realm. As one of the first ecological preserves in Costa Ballena, they assembled nearly a thousand acres of innate natural wonder of what's one of the world's most biologically diverse areas. From the most breathtaking headland of the coastal mountain range, going through breathtaking waterfalls, and some of the most iconic tropical wildlife habitats in existence, Sea Ridge is truly a once in a lifetime property, something unlike any other corner of the world. This is truly an iconic estate in every sense of the word, as it fully embodies the environmental ethos and conservation mindset that Costa Rica has propelled in the last couple decades. Located on a 2,400-foot tall knoll on the coastal mountain range, Sea Ridge Reserve includes the highest point within the closest proximity to the ocean in all the country, and perhaps all of Central America.
