Property Description

A beautiful home with a wide open view at 415 feet above sea level, this property is priced to sell!! Located only a few minutes off of the coastal highway and a few minutes from postcard perfect Playa Matapalo, this home has the best of both worlds: easy access but with a 90 meter long driveway that gives it coveted privacy. Nestled in the jungle there are no neighbours in site. It's just you, your guests, monkeys, sloths, birds and other wildlife entertaining each other. The home is 2 stories, the upstairs being the heart of the home with the huge master bedroom, living room, and kitchen all opening out to a covered deck with BBQ area. In the kitchen find a brand new high efficiency stainless steel refrigerator and a 6 burner gas stove. Downstairs is the garage, storage bodega, and the air conditioned guest bedroom with outdoor shower area. From there you go down outside steps leading to the totally private swimming pool area.
