Property Description

MAKE THE DISCOVERY.... A blend of Spanish charm....Authentic Mexican-fired, ceramic tile, mixed with exotic hardwood.This custom built, open concept, Ocean view home offers a little bit of everything! Located in a private setting, but only minutes from town. Beautiful, sweeping jungle canopy views lead to the Pacific Ocean, including views of Cano Island. This 1.25 acre property borders a year round river with beautiful tropical trees that are frequented by Howler monkeys. The day I viewed this house there was a family of monkeys located in a tree only 25 feet from the outdoor living area/covered terrace.This 2 bedroom, 2.5 bathroom, air conditioned home, is tastefully furnished and move-in ready. A great turn-key opportunity.The roof is ceramic-tiled, built for a lifetime and fully insulated, which provides a cooler and quieter interior climate.For the handyman, there is a wonderful workshop/storage bodega located in a central area, complete with ocean and swimming pool views.
