Property Description

The creative design of this home draws in the light and beauty of tropical Costa Rica. You and your guests will enjoy both the cool, inviting, open interior and the seamless transition to outdoor living spaces with their pool, surrounding jungle, tumbling brook and wildlife including monkeys, birds and other animals. 4 bedrooms, 3 full bathrooms and an additional powder room ensure that everyone who stays here will have their own personal space to escape and relax. In the living areas, vaulted ceilings and an open design create a community place with kitchen, dining, and living areas all featuring excellent finishing detail and tasteful contemporary accents. The overall impact is impressive and the new construction emphasizes strength and quality. Located on a private, gated 1.81 acre lot just 1 km from a nicely paved road, the property is roughly 20 min to Dominical's beaches, or 25 min to the area's largest city of San Isidro.
