Property Description

The Baru river is not only known for being one of the most picturesque spots in Costa Rica but hosts many other fun activities as well. Whether it's great snook fishing, inner tubing, bird watching, SUPing, or just hanging out swimming in the river with family and friends, the Baru has it all. This two bedroom house gives you all of this, plus it's only a 10 minute walk or 2 minute drive to the beautiful beach of Dominical "where the mountains meet the sea". This newly built home has three stories with the kitchen and dining area all connected to the large outdoor covered patio on the first floor. On the second floor, you will find a master bedroom and guest room with a spacious bathroom and two person tub.. The third floor has a loft which is currently being used as an exercise room which could also be used for yoga or an extra bedroom. The land has been planted with an abundance of banana and plantain trees as well as katuk, yucca, papaya, and pineapple.
