Property Description

These 33.2 acres offer surrounding views of mountains and the white water Pacific coastline, sunsets over the ocean, multiple building sites for homes or cabins, space for trails and animals and orchards, and year-round brooks with dipping pools along two sides. The land is mostly cleared for maximum flexibility but is ringed with forest and all of the natural worlds that come with it.Access is less than ten minutes from the coastal highway just a few minutes south of Uvita. The road that leads to the property continues along the edge of the mountain providing a long fairly level stretch for morning walks, mountain biking, or horseback riding.Privacy is absolute, but you are not far from neighbors of like mind and interests. Start with a personal home as simple or elegant as you wish, then decide if you'd like to add a retreat center, cabins for rent, a couple of luxury homes for family/guests/rentals, etc.
