Property Description

Magnificently positioned in the hills above Playa Hermosa Costa Ballena, is Casa Sueno Del Mar. It is a short three minute ride off the Costanera to this recently renovated home where you will be engulfed in all the beauties of Costa Rica's jungle and spectacular ocean views. The home consists of 3 bedrooms, 2 1/2 bathrooms, recently renovated kitchen with granite counter tops, new appliances and much more. Upstairs is the master bedroom and bath that was also magnificently upgraded with the finest woods and stones throughout. The property, which is 2.03 acres, commands expansive ocean and jungle views from all angles. It is oriented to the southwest, which produces stunning sunrises over the rain forest, and sunsets over the Pacific. At an elevation of approximately 1200 feet, air conditioning is only a choice, not a necessity. The yard provides enjoyment with its beautiful lap pool with an easy, step-entry.
