Property Description

Looking to live on a smaller scale, with full luxury amenities and a lovely aesthetic? Not everyone needs a 4-bedroom home when planning his or her move to Costa Rica. And for those more sensible couples or singles still wanting a lot of personal space, this chic 1750 square foot two-bedroom home has everything you need! Lots of shaded lounge areas, indoor and outdoor dining, a full-sized pool, high ceilings, ensuite master bedroom, large kitchen with plenty of counter space, and a stunning floral garden on almost 1 acre with great privacy. Because of the 100% usable lot you can add more bedrooms or a couple of guesthouses. With this property, you can have it all. Situated on a private cul-de-sac with very little traffic, this home is perched at the back end of the inclining lot with a lovely broad view of the Pacific Ocean, Cano Island, and Ojochal village sprawling below. The Talamanca Mountains tower in the back of this property, sending down fresh mountain breezes throughout the day and night with several waterfalls sprouting out during the green season.
