Property Description

There are two enchanted areas nearby the Costa Ballena, but far enough away to make one feel that they are a bit off-the-beaten-path. Once is the Tinamastes Valley and the other is the valley of San Juan de Dios. There you will find a gorgeous landscape adorned with rolling hills, pristine rivers, waterfalls and a degree of flora and fauna that you would think only existed in surreal paintings. Nevertheless, this place is real and offers the opportunity to own your own piece of Costa Rica Southern zone paradise. The location is less than a half-hour from the coast and popular beaches like Playa Dominical. Just minutes away is the quaint village of Platanillo, which has most of the provisions you will need on a day-to-day basis. And the "big city" of San Isidro de El General, second largest in Costa Rica outside of the metropolitan area of San Jose, is also a short half-hour drive. The property features 12 sprawling hectares with a creek and thick jungle area, pastureland, with ample areas for additional building.
