Property Description

If you are looking for quality, value, and a tranquil setting, then look no further than this new 3,300 sq. ft. home with 3 bedrooms and 2 1/2 baths. Sitting on a ridge, high above the gorgeous rainforest canopy and rivers below, this lovely house has been handcrafted and personally supervised by the owner-builder and his wife with great love for their project... Access is through the Valle Pura Vida, which is in the heart of Manuel Antonio and is the home to many million-dollar homes and the highly successful gated community of Rancho Manuel Antonio. As you reach the high point of this area, you find 3 homes. The first is offered at \$595,000, the second has been sold, and the third is a new home being built by the same owners and has over 5,000 square feet and is offered at \$825,000. The homes will share certain expenses such as a security guard and elevator. A 3-level steel stairway takes you up to the homes.
