Property Description

Location, Location, Location. We have all heard this statement over and over however this property has a lot more to offer than just its ideal location which is literally minutes from the center of Uvita town, numerous great restaurants, and the famous beaches at the whales tail and national park. This Luxury compound consists of 4 buildings, the main open style house has 25 foot vaulted ceilings with 1 master bedroom with partially indoor pool, 2 car garage with 2 bedrooms on second level that have great ocean views, 1 bedroom fully equipped guest house with views of the ballena rock , and a 2 bedroom live-in caretakers house which can easily be converted into a rental unit. All rooms come with ceiling fans and A/C. The floating deck in front of the pool extends out into the surrounding rainforest where you can take in one of the many Costa Rican sunsets, or relax and enjoy a book in your hammock by the pool side Bali style rancho.
