- Pool

Property Description

This villa checks almost every box that discerning buyers seek in the current market: privacy, quality, surrounded by nature and wildlife, modern design, and STUNNING ocean / coastal / rock island / sunset views. The house was completed in 2017 and has been very well maintained with mostly sparse owner usage (one owner) and just a few select rentals. For the house, the lower level features a back, garden patio (cool escape for the afternoons), beautiful great room (kitchen, breakfast bar, dining area, living, wet bar), half bath, front patio and infinity edge pool. There is also an attached 2 stall garage that could be easily converted into a third bedroom suite if desired. Upstairs are two, corner master suites which are full of light, have generous, ocean-facing terraces, well-designed closet spaces and beautiful en-suite bathrooms. Between the two bedrooms and at the top of the stairwell is nice reading area (with day bed), also with stunning views.
