- Acreage
- Fitness Center
- Luxury Estate
- New Projects
- Beach Properties
- Investment Opportunities
- Mountain Properties
- Ocean View

Property Description

The total area of MU is 12 acres. Lot 39 is ready to build on and there is pre-approved space for the construction of two luxury homes. These lots were the first lots ever sold in Costa Verde Estates. There is approved water and electricity and fiber optic internet available. This will afford you the opportunity to have your own exclusive compound, within an already exclusive neighborhood and combine costs of maintenance. Annual HOA fees are \$2,800. With fiber optic internet available, it is possible to work remotely as a digital nomad, watch the whales and savor the sunsets. With lush vegetation on over twelve acres, you cannot even see a neighbor. People have likened the setting to the Amalfi Coast, Kauai and Mount Soledad in La Jolla, California. Add to that, the morning monkey visits, an occasional sloth and a multitude of tropical birds landing on your patio balcony, you will know you have found paradise.
