Property Description

The Cinco Ventanas community in Ojochal is quickly becoming the most desirable area on the southern Pacific zone of Costa Rica. With a short drive up mountain roads from the areas most beautiful beaches to the higher altitudes, you can easily arrive home to panoramic ocean views in just minutes from town and services. Through the gate and you're home! Every room shares the Panoramic ocean views out past the large pool and patio. The principle suite is very spacious and includes a naturally lit walk in closet with large window. The ensuite bath provides double vanity, a large two person shower, bidet and plenty of storage. The additional two bedrooms have access to the shared bathrooms. When not enjoying the full sunshine patio surrounding the pool, you have options. A quiet lounging nook at the far end of the house is one option for afternoon naps, enjoying a great novel, or a place for kids to hang out.
