Property Description

This beautiful 3 bedroom, 2 bathroom home with 5,154 m2 lot and the most ideal location in the Booming town of Uvita is the best place for your new Costa Rican home. Home is located 2 minutes drive from a main paved road on the end of the dead end street on top of the hill where in the summers you can enjoy the sunset views over the ocean and hear the sound of the Uvita River. It is like a private oasis surrounded by nature and trees with mature landscaping just minutes away from the amenities and 10 minutes drive to the beach. Property has a private gate, as well as driveway which ends up on the house, however it has also been used for the lower part of the property where an additional building site is. Lower building sites would allow the new owners to build an extra guest house and several studios without jeopardizing their own privacy. This home was built in 2015 and used as a family vacation home.
