Property Description

The “High Rise” is a 241m2 (2594 sq ft) Quality Luxury House designed specifically for Lot#2 in this beautiful Gated community. It is a 2 story house that reaches 9.5m (31.2 feet) high. It is like none other you have ever seen. To start with, the main living areas and the pool are on the second story to take in the amazing views. The second story is a complete open concept with 6.21m (20.4 feet) high ceilings, which are finished with gorgeous laurel wood with almond wood beams. The kitchen (with an island and a small bar) and living room take up the majority of this space. The cupboards and doors are custom, hand-made from Cedro (Spanish cedar) wood. All countertops in the kitchen and bathrooms are granite. All floors and the first 2m high of walls in the bathrooms are tiled. On one side is a bathroom which is inside the huge rock wall that stretches to the ceiling and on the other side is a nook that jets out and serves as the office while overlooking the jungle.
