Property Description

Ideally located on Uvita's peaceful La Union Road, this large lot delivers a phenomenal ocean view that stretches from the iconic Whale's Tail all the way to Manuel Antonio. To the east of the property, you'll enjoy lush mountain and valley views, a dramatic contrast to the dazzling ocean blue in front of you. Two large building pads promise ample space to build both your dream Costa Rica vacation home and a guest house or income-generating vacation rental. A number of large trees on the property attract Scarlet Macaws — don't be surprised to see these gorgeous birds daily. The lot has both electricity and fiber optic available, making this an ideal option for anyone who wants to feel world's away yet remain connected via blazing-fast high-speed internet. Water concession is from a nearby spring.
