Property Description

This beautiful and expansive estate is situated on a gently sloping ridge with spectacular ocean and gulf views. Gaze upon the Osa Peninsula and Matapalo each and every morning. With the expansive ocean and sky views, there's always something beautiful to see. It is only a short distance to the deserted volcanic beaches of the Southern Costa Rica coast, world-class surfing and fishing along with all of the amenities of the village of Pavones. The winding entrance driveway passes through the manicured grounds leading up to the expansive grand manor. There you will find a wide entrance hall leading to a large foyer with expansive views. The open floor-plan with 20 ft open beamed ceilings creates an ambiance of grandeur. The bedrooms are private suites which makes Casa Siempre Domingo the perfect for set-up for a yoga retreat, vacation rental or family home. With four private bedroom suites, an adjacent efficiency apartment, a beautiful infinity pool overlooking the blue waters of the gulf, and lots of open areas to expand upon, this is the perfect private family compound or World Class Yoga destination for your tropical lifestyle getaways.
