Property Description

This is an amazing, architectural masterpiece and a must-see gem of a house. This tropical mansion seamlessly blends modern luxury with natural, rustic and traditional Bali charm. With many verandas, terraces and other outdoor living spaces, this home incorporates the tropical living lifestyle into a luxury, private resort. The house is built as a house compound with many individual structures, including the main house, two 1-bedroom units, two 2-bedroom units, and a cabina. The main house features an entryway with a traditional balinese handmade carved wooden door that opens onto a cavernous great room decked out in a Balinese-style aesthetic: thatched bamboo ceilings, large windows and ornament details. The great room features a spacious living and dining room with a cozy fireplace. The kitchen features rich wood tones that are luxurious and inviting. Additionally, there is a powder bathroom for guests.
