- Water Views

Property Description

Ojochal is a hot new real estate market of not only the famous Costa Ballena, but the whole of Costa Rica – in this town you will find services and amenities like supermarkets, cafes, pubs and amazing restaurants, tourist shops, sport facilities and many others. Around you are jungles, wildlife, gorgeous dark sanded beaches, mountain rivers and waterfalls with refreshing swim holes...It is no wonder that the streets of Ojochal are becoming quite busy these days – and while the town remains pristine and nature-immersed, privacy and serenity are becoming harder and harder to come by. But what if I told you that total privacy is just 5 minutes away from the action of Ojochal? The village of Tres Rios lies barely 5 km from the entrance to Ojochal, but it may as well be a hundred miles away. Why? Because the area retains the serene, unspoiled, laid-back ambiance that Costa Rica is famous for.
