Property Description

Casa Sonidos del Agua is a tropical and wonderfully artistic home which offers jaw dropping sunset ocean views along with a unique sense of privacy and authenticity. It is an architectural masterpiece, designed to integrate the elements of water, wind, and sunlight into its feel and every inch of the home provides both the panoramic views and refreshing tropical breezes. The home is nestled into one of the last, undeveloped tracts of land in Manuel Antonio, on what was previously a family farm, and creates a blend of luxury and authenticity which is almost impossible to find. This property offers such a unique setting with a sense of the Manuel Antonio from decades past but with a strategic location in the epicenter of its present and future. There is enough elevation to provide views and breezes, yet the home is just a short walk through the rolling terrain down to a secluded beach. Picturesque hills lined with pasture and a few cattle roaming roll down to a lush tropical rainforest with beaches below all combine for something almost surreal.
