Property Description

Location: Costa Verde Estates, Escaleras, Dominical, Costa Rica Perched at 1,700 feet above sea level in Costa Verde Estates — the Southern Zone's most prestigious gated community — Casa de Zen offers a rare blend of modern luxury and untamed rainforest beauty. Set on 3.5 acres of lush primary jungle, this 4,800-square-foot villa was designed to maximize panoramic views of the Whale Tail, Osa Peninsula, and Caño Island, all while immersing you in complete privacy and tranquility. A Home Designed for Living and Entertaining Step through etched glass doors into a soaring great room with rich wood accents and artisan details. The open layout connects a gourmet kitchen, elegant dining area, and living space — perfect for intimate evenings or grand gatherings. A 25-foot wall of glass slides open to a covered veranda overlooking an infinity-edge pool that seems to merge with the Pacific. The outdoor kitchen, complete with BBQ, ice maker, and seating for six, sets the stage for effortless al fresco living.
