Property Description

Nestled in a lush, vibrant cloud forest more than 1,400 feet above sea level and teeming with wildlife, Casa Olas Azul features state-of-the-art amenities, world-class ocean views, towering vaulted ceilings and plenty of privacy. Construction on the villa, which features two bedrooms and one and a half bathrooms, was completed in August 2015 and the results are stunning. Throughout multiple parts of the property - including the kitchen, bedrooms, infinity pool and backyard barbeque area - there are incredible sightlines of the famous Whale's Tail at Marino Ballena National Park, a rocky reef that stretches more than a mile out to sea and is completely exposed during low tides. As the ocean water fills in on high tides, the reef shelf disappears for a few hours, only to appear again as the tide rushes back out to sea. It truly is a sight to behold as nature works its course each Costa Rican day.
