Property Description

This beautiful property is located in Phase 5 high above Ojochal but only about 10 minutes from the village. This 1.06 acre/ 4,269 m2 lot consists of two building sites. The 1,800 ft2 Ecomaderas house and very large swimming pool were built on the lower plantel. The upper Plantel is ready for your dream home, it has its own gated entrance and the driveway is already in place. This property is surrounded by lush jungle making it very private. The two-storey Ecomaderas Wood home was built with pressure-treated pine wood which is very resistant to the tropical environment. This house is sold without furniture and needs a bit of work but at that price this property is a steal. Come and see for yourself, setting up a visit is very easy.
